Q1 2018

Dear Hiring Professional(s):

I'm currently serving as Vice President of Sales to Smart Retail until Q1 2018, a Silicon Valley based startup, and in the midst of a successful acquisition. Seeking an opportunity that's lean, growing and can leverage my connections, expertise and experience.

In 2008 – I served as a senior leader with Seattle, WA based startup, Clearwire, deploying the first 4G network in the United States. In late 2013 - Clearwire was acquired by global technology leader SoftBank of Japan for \$2.1B USD.

I look forward to learning more about your role and connecting with you and your teams.

Respectfully Submitted,

Dennis A. Branch
